

# PROJECT PRESENTATION CHARITY MANAGEMENT SYSTEM

BY : MOHIT PATHAK  
B.TECH (COMPUTER ENGINEERING – CE31)  
ROLL NO : 19001003065

# INTRODUCTION AND MOTIVATION

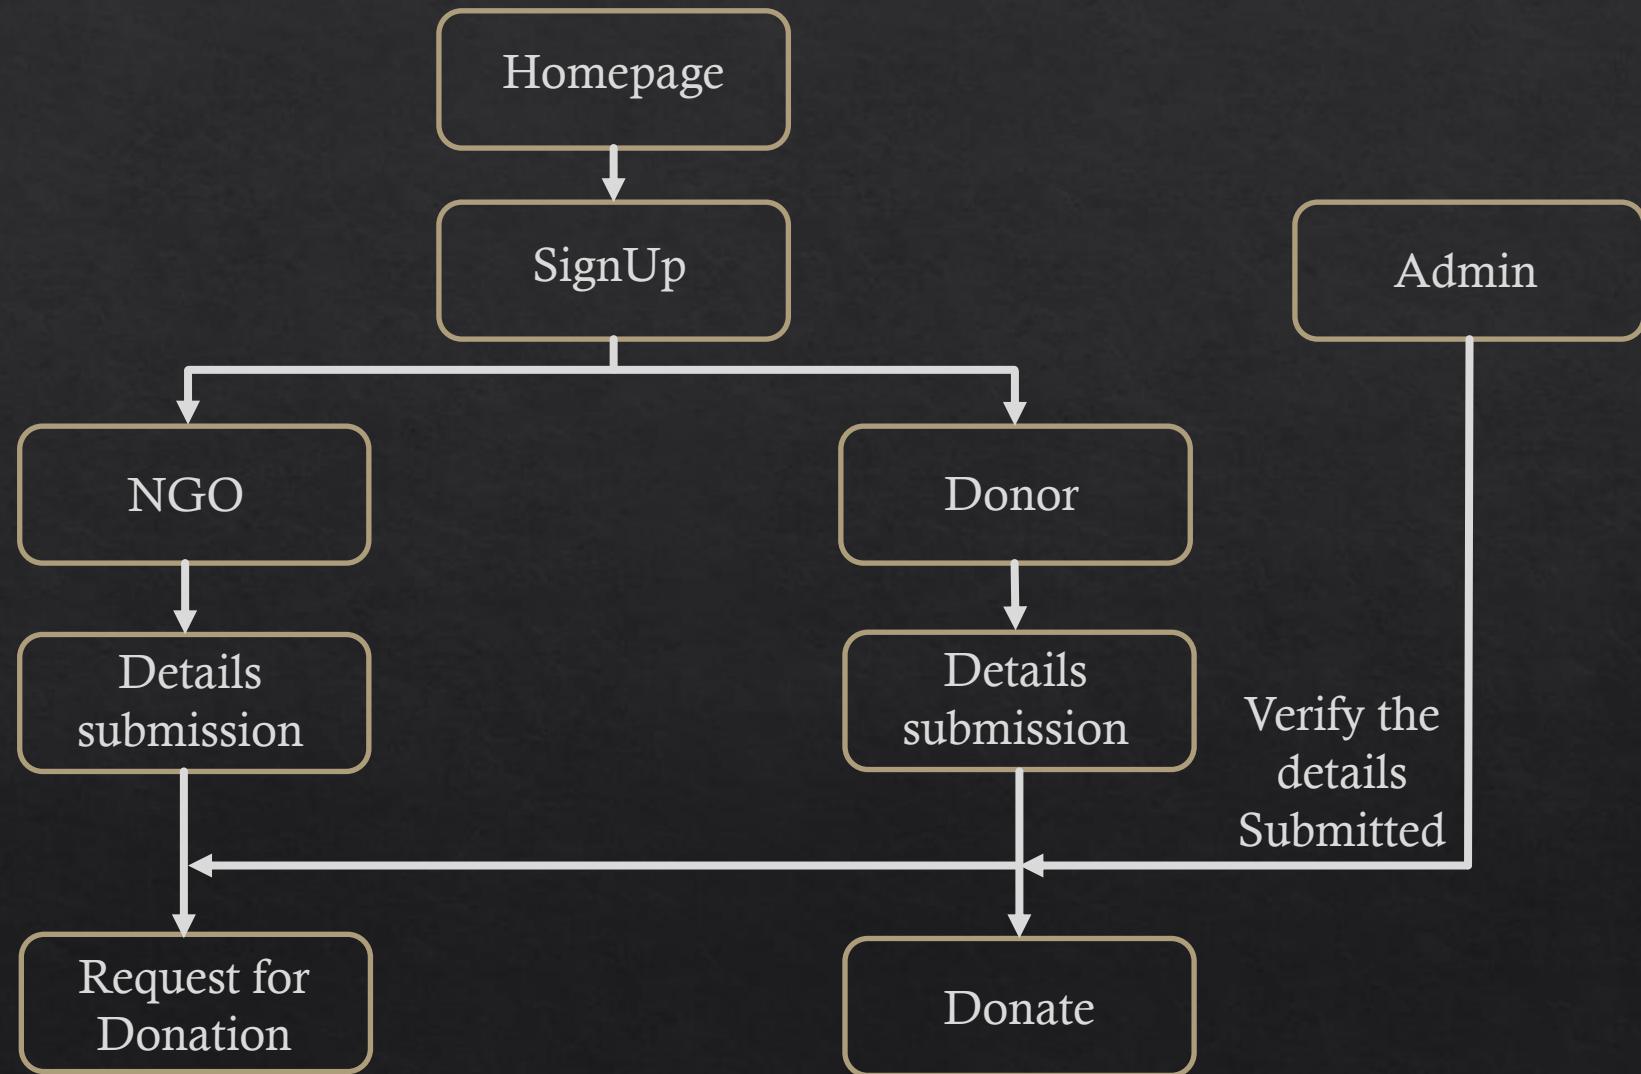

- ❖ Charity is an act of kindness, where a person who has financially more than enough of what he or she needs contributes a part of his or her surplus income for the fulfilment of the needs of those who are less capable. The majority of NGOs has experienced difficulties in getting funds or other required things. Getting donor is a very hard task, and sometime dealing with some donor's conditions can be a big challenge for NGOs to fulfill.
- ❖ This charity management system will help NGOs to find donors easily. This system has three modules namely, Admin, NGO and Donor. Admin can login using credentials and manage the request raised by NGO by approving or rejecting it. Approval will be done after verifying the NGO documents uploaded by NGO.

- ❖ Admin will get the report of NGOs who get donations. NGOs can register and raise request by uploading NGO documents. Once admin gets the approval, they can login using credentials. NGO can raise request in need to the various registered donor. They can view the previous events list and donation report.
- ❖ Donor can simply register and login using credentials. They will get the notification of the request raised by NGOs for donation. They need to fill the details regarding donation on approval of request. Donor will get the date of donation. They can also view Donation history.

# WHAT DOES IT DO?

- ❖ It provides a digital platform for the NGOs and the donors to interact.
- ❖ NGOs can raise a request for donation.
- ❖ Donors will be notified of the donation requests and can respond to donation requests.
- ❖ Hence, It will become very easy for the NGOs to reach prospective donors, While donors will be able to donate in just few clicks.

# WEBSITE STRUCTURE

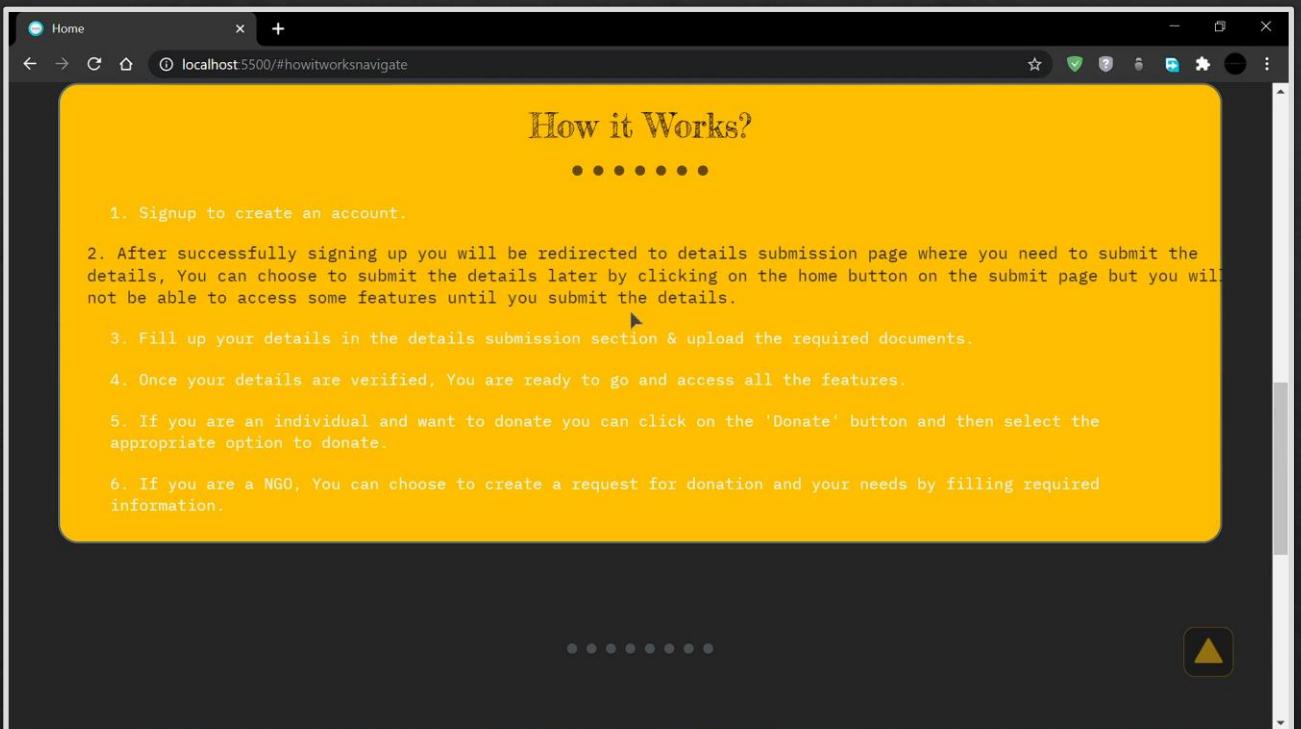

# Homepage

- ❖ The navigation bar contains options to donate, request for a donation, know the working of the website : “How it works?”, contact details and the signIn and SignUp.
- ❖ The navigation bar options changes based on the type of user using the website. For eg. If the user is NGO then the donate option will not be visible and if the user is a Donor then the request for donation option won’t be visible.

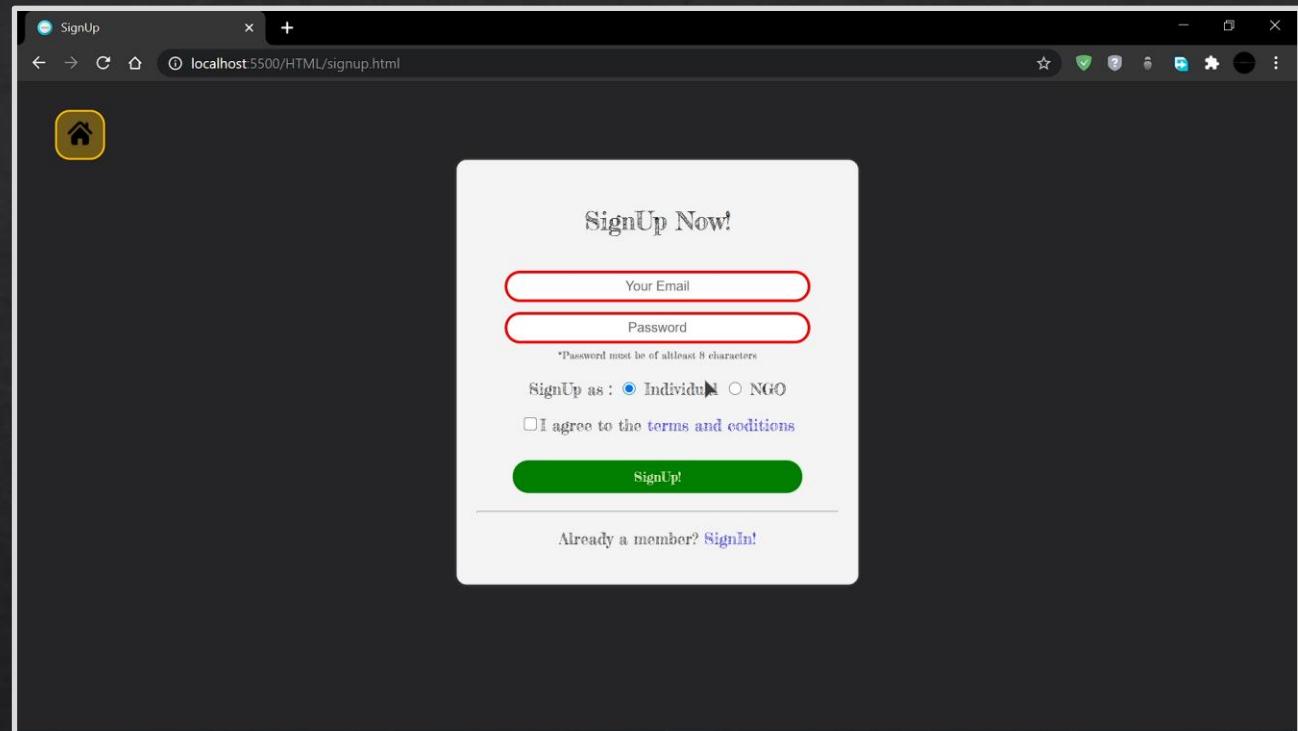

# THE “HOW IT WORKS?” SECTION

- ❖ The “How it works?” section provides the user info about the working of the website.

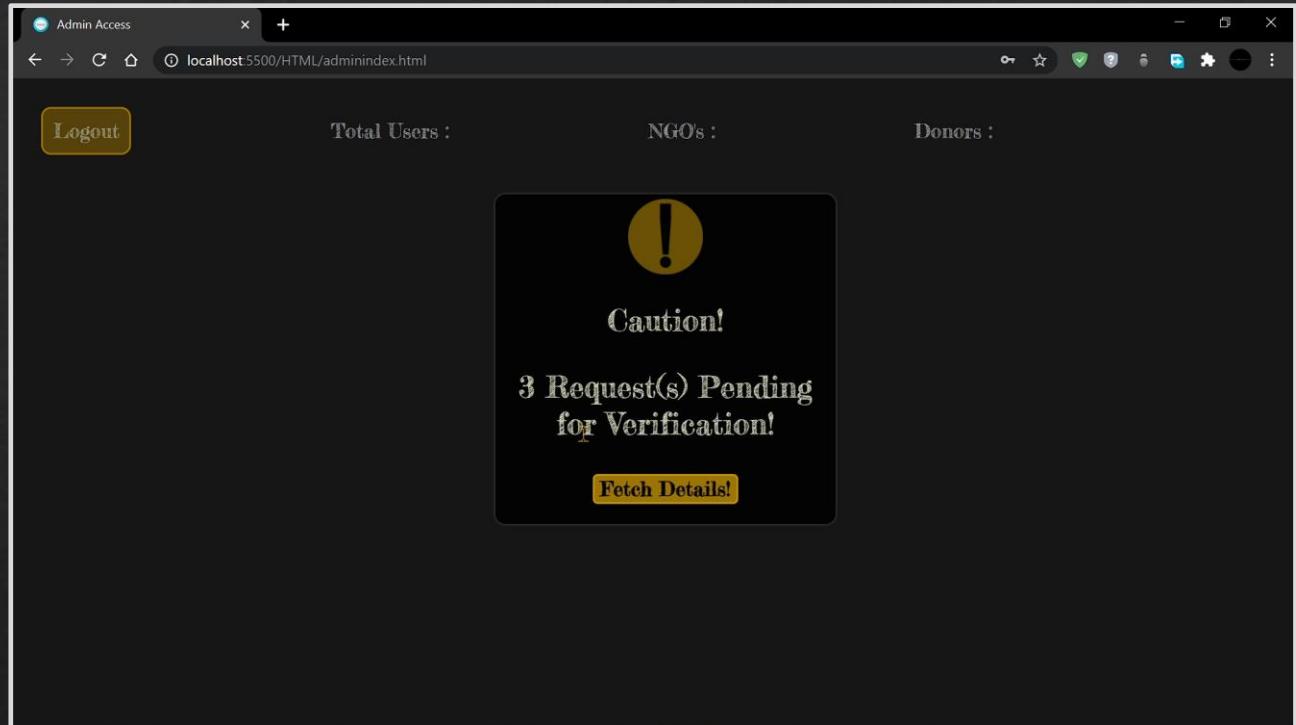

# SIGNIN AND SIGNUP

- ❖ There are two options to SignUp :  
As a Donor or As a NGO.
- ❖ Once the user Signs Up, He/She will  
be redirected to the details  
submission page where he will be  
required to submit his personal  
details for verification.

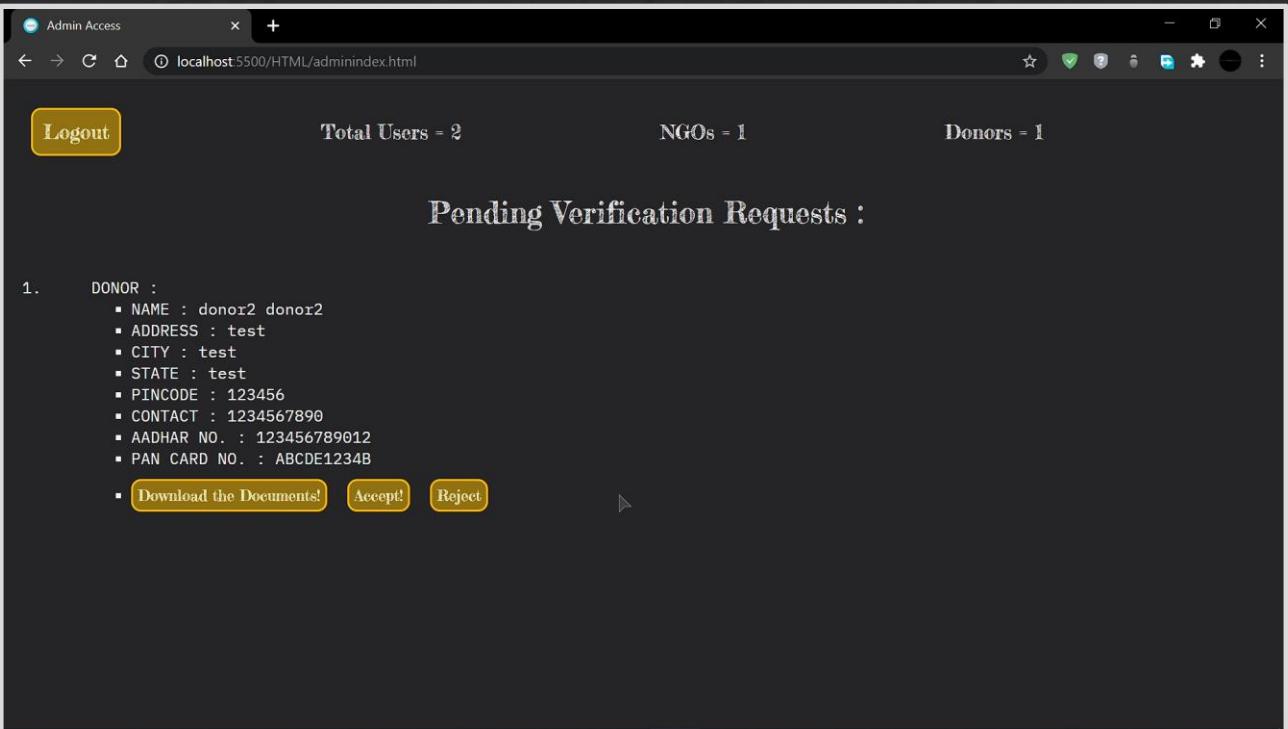

# ADMIN ACCESS

- ❖ This is the admin page which is only accessible by the admin of the website.
- ❖ As soon the admin Signs In he receives a prompt notifying him whether if are any pending requests for verification.

- ❖ After interacting with the prompt the details of the pending verifications will be fetched and the admin will have the options to Accept or Reject the requests.
- ❖ The next time the user SignIn he will be notified whether his details were verified or were rejected.

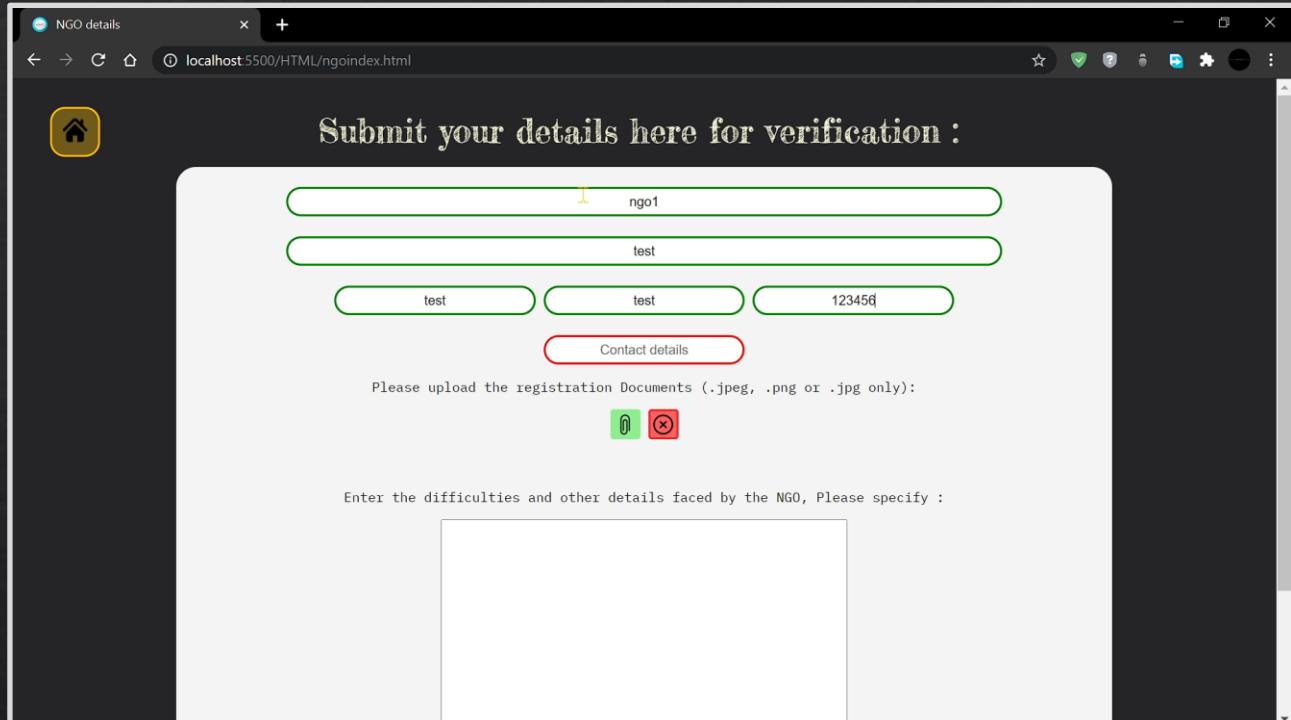

# NGO ACCESS

- ❖ When the user of the website is a NGO then there will be functionality to request for donation from where the NGO can request for donation by providing the required details.

# NGO'S DETAILS SUBMISSION

- ❖ After the user signs up as an NGO he/she will be redirected to this details submission page where he/she can submit the details which will be verified by the admin.
- ❖ The user will have an option to submit the details later but until then the user won't be able to access any feature of the website.

The screenshot shows a web browser window titled "NGO details" with the URL "localhost:5500/HTML/ngoindex.html". The page has a dark background with white text and green input fields. At the top, it says "Submit your details here for verification:". Below that are several input fields:

- A text input field containing "ngo1" with a yellow info icon above it.
- A text input field containing "test".
- A row of three input fields: the first contains "test", the second contains "test", and the third contains "123456".

There is a red button labeled "Contact details". Below these fields is a section for file uploads with the placeholder text "Please upload the registration Documents (.jpeg, .png or .jpg only)". It includes a green "Choose file" button and a red "Remove" button. At the bottom, there is a large text area with the placeholder text "Enter the difficulties and other details faced by the NGO, Please specify :".

# REQUEST FOR DONATION

- ❖ This page is only accessible if the details of the NGO have been verified by the admin.
- ❖ From here the NGO can create a request for donation and the donors will be notified of the request.

The screenshot shows a web browser window titled "Create a Request" with the URL "localhost:5500/HTML/requestfordonation.html". The page has a dark background with white text and input fields. At the top right is a yellow house icon. The main title is "Create a request for Donation here :". Below it are several input fields:

- A green outlined field containing the text "123456578901234".
- A red outlined field labeled "Enter Re-enter Bank Account Number of the NGO".
- A red outlined field labeled "IFSC Code : ABCD012345".
- A red outlined field labeled "Bank Name & Branch Name".
- A text area labeled "Please upload the Bank passbook's scanned image (.jpeg, .png or .jpg only)" with a file input field and a red "X" button.
- A text area labeled "What do you need donation for? Please specify :" with a text input field and a red "X" button.

# DONOR ACCESS

- ❖ When the user of the website is a donor then there will be functionality to donate from where the can see requests for donation by different NGOs, See the details provided by the NGOs and donate.

# DONOR'S DETAILS SUBMISSION

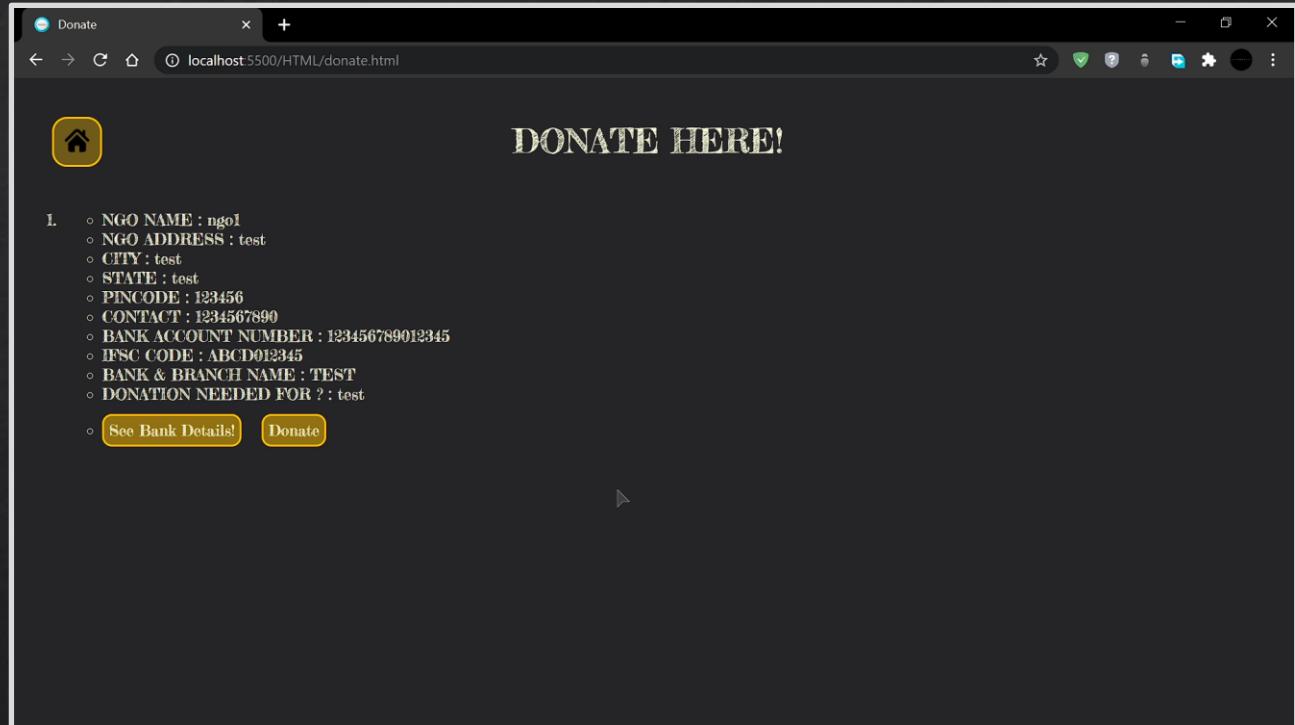

- ❖ After the user signs up as an donor he/she will be redirected to this details submission page where he/she can submit the details which will be verified by the admin.
- ❖ The user will have an option to submit the details later but until then the user won't be able to access any feature of the website.

The screenshot shows a web browser window titled 'DONOR details' with the URL 'localhost:5500/HTML/individualindex.html'. The page has a light gray background with a white central form area. At the top center, it says 'Submit your details here for verification :'. Below this are several input fields:

- A first name field containing 'donor2' with a green border.
- A last name field containing 'donor2' with a green border.
- A middle name field containing 'test' with a green border.
- A date of birth field containing 'test' with a green border.
- A gender field containing 'test' with a green border.
- A PAN number field containing '1234567890' with a green border.
- An Aadhar number field containing '1234567890' with a red border.
- A second PAN number field containing '12345678' with a red border.
- A placeholder text below the fields: 'Please upload your Aadhar and PAN card (.jpeg, .png or .jpg only):' followed by a file input field with a green border and a red 'X' icon.
- A large green 'Submit' button at the bottom right.

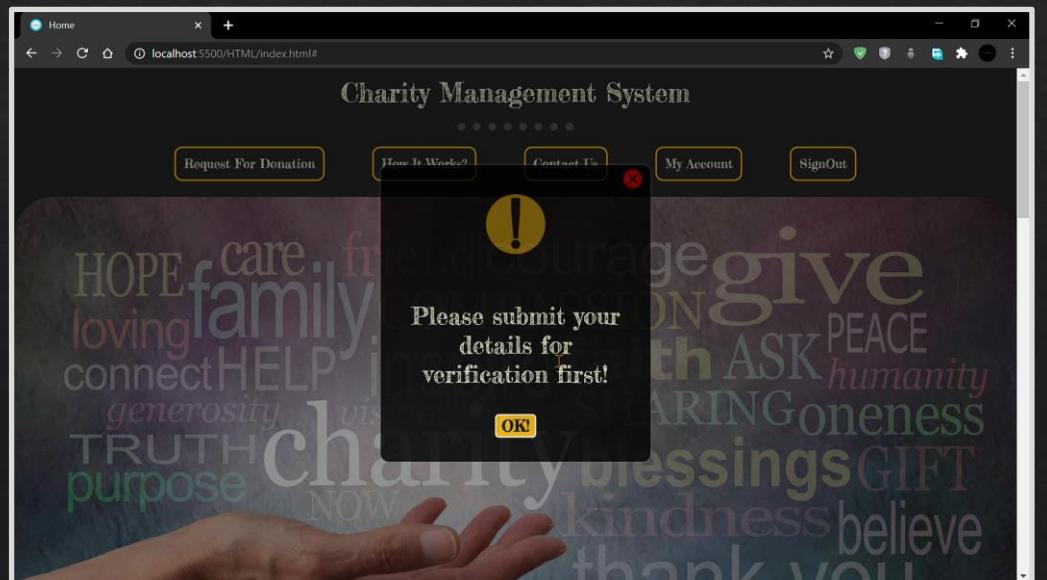

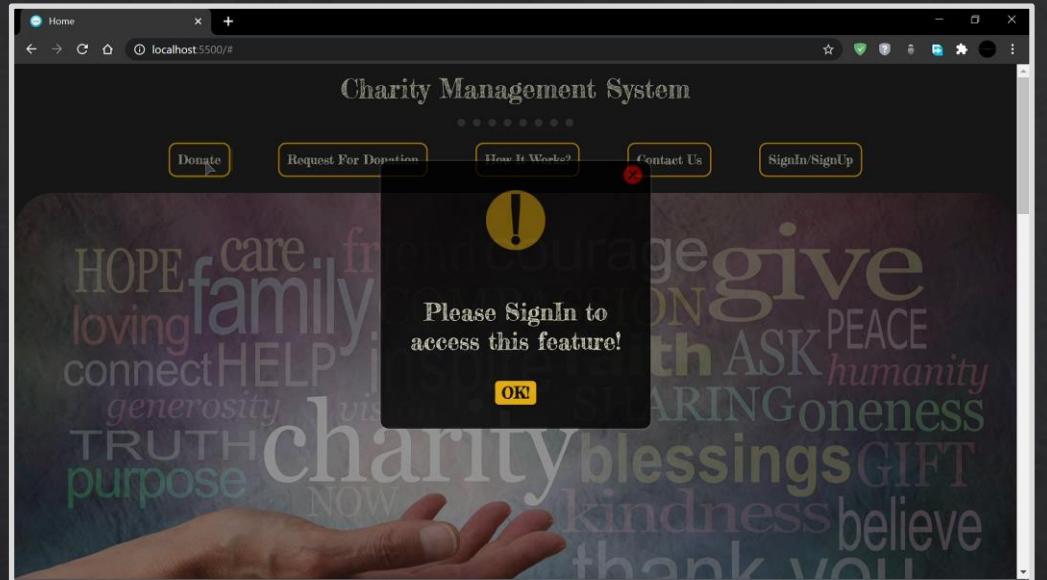

# DONATING

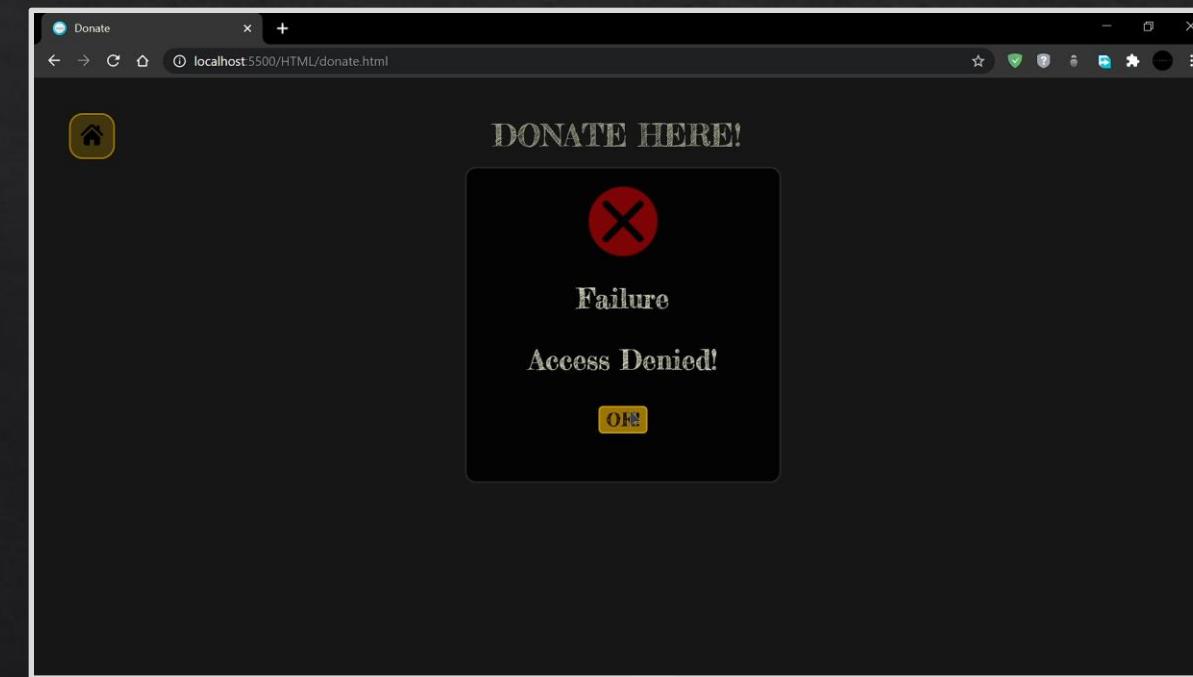

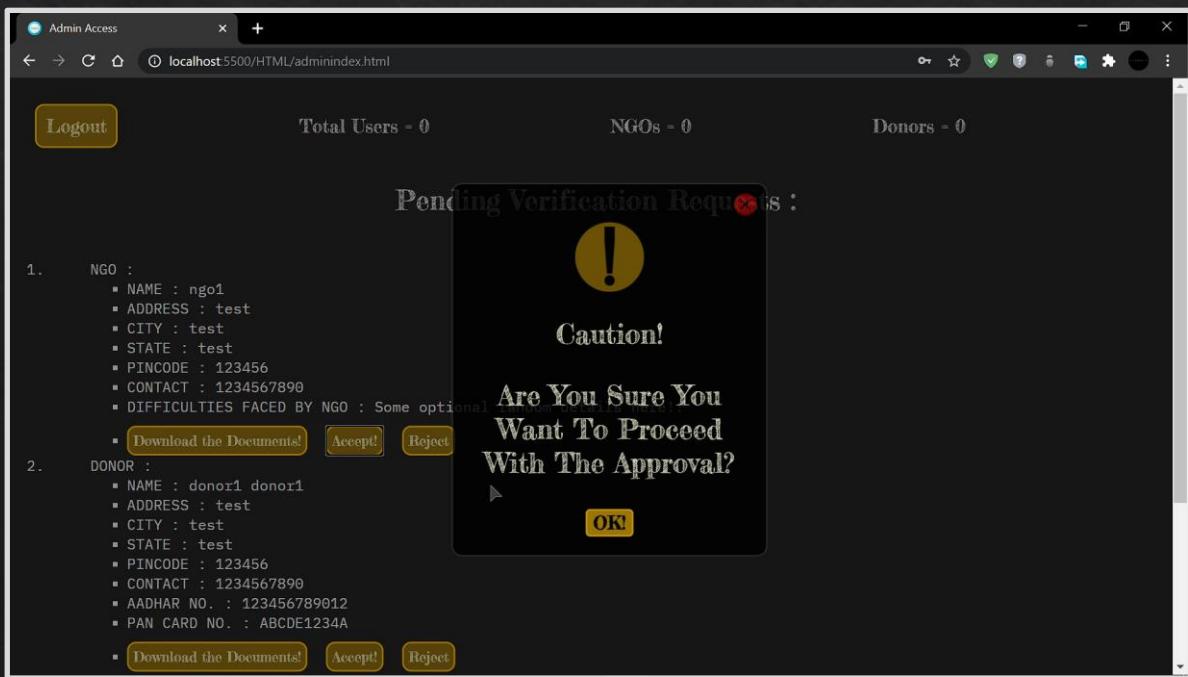

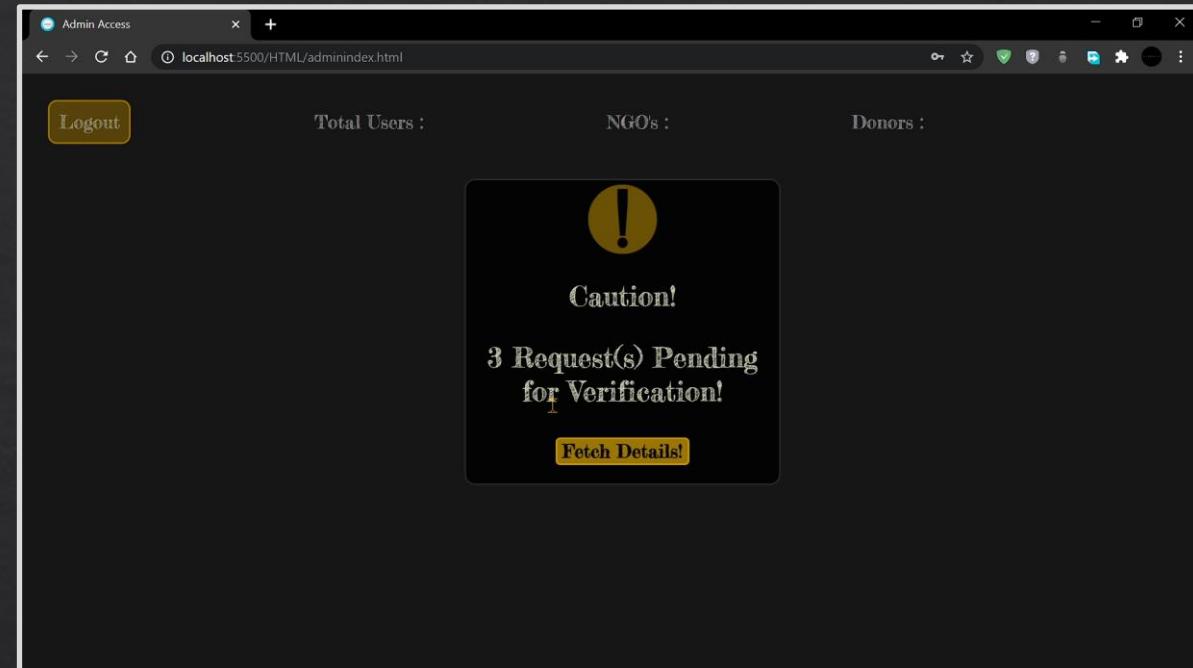

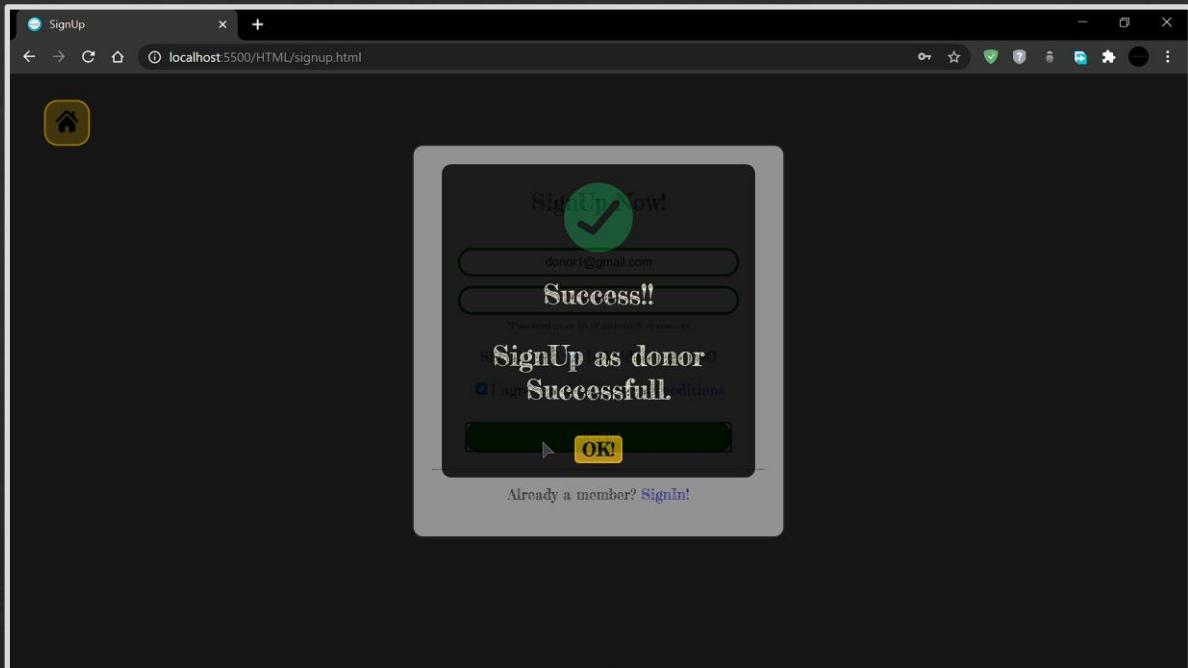

- ❖ This page is only accessible if the details of the donor have been verified by the admin.
- ❖ From here the donor can see the requests for donations raised by various NGOs along with the details submitted by different NGOs and he/she will also have the option to donate.

# USER INTERFACE

- ❖ To make the user experience, Message boxes have been added to let the user know different info and guide the user through the website.
- ❖ These message boxes have been carefully designed to show the most apt details so that the user does not have to face any difficulty.
- ❖ On the admin page and the donation page these message boxes show the number of pending verifications and requests for donations.

Thank You
